

The DiversITy-talent Awards

DiversITy-talent is a Community Impact Company (CIC) set up to inspire young people and other untapped, underrepresented talent pools from diverse backgrounds into business and technology careers. The British Computer Society – BCS (The Chartered Institute for IT), CIONET and The ESG Institute are our founding partners.

Get involved in our 'DiversITy-talent Awards'

This is a national competition open to all schools, youth groups, disadvantaged teenagers, young adults and minority groups representing untapped talent pools. The competition's aim: To solve society or community challenges through applying modern business skills, digital ways of working, Artificial Intelligence (AI) and appropriate technology to find winning, practical solutions that can be implemented successfully.

Sign up your team for our competition to solve a society or community problem and With a chance to win prizemoney for your school to spend on technology and more!

Each team will have access to technology and tools that will allow them to implement their solution and fundraise for their school, college, university, youth group, community or local cause. On top of the additional prizemoney they would win.

Your team

- ✓ Each team should be 10 people (our recommended number)
- ✓ Each team must be 50% male and female
- ✓ To also be fully inclusive of cultures, communities, other identities, and abilities
- ✓ DiversITy-talent will set the society or community challenge
- ✓ Each team will have help to understand the process that will be used and how to work through to a tested solution, behind their idea
- ✓ Each team must work together effectively to supercharge collaboration and welcome open communication and the sharing of ideas
- ✓ Each team will have access to a no-code platform to help them create digital assets as part of their solution, to aid fund raising and contribution back to the community, school or group
- ✓ The process must be inclusive and equitable, providing each member of the team the opportunity to contribute to the whole, rather than being dominated by a few

Guidelines

- ✓ Each school, college, university, youth group, community may enter as many separate teams as they like
- ✓ Teachers, youth group co-ordinators or community representatives will act as facilitators of the process, supported by the team @DiversITy-talent
- ✓ Each team will refine that challenge and focus on a solution they could implement locally to benefit the local community, school or group they represent
- ✓ Each solution should have a technology component that benefits the solution or those people your solution benefits
- ✓ Solutions will be judged and could go forward into the National Competition finals
- ✓ All finalists will be invited to a special afternoon event to meet businesses, experts, celebrities and attend the awards ceremony itself
- ✓ Winners will receive backing and further funding to implement their solution locally and nationwide where it is possible to do so
- ✓ Teams may enter the competition again the following year, to tackle a new challenge set by DiversITy-talent

Benefits for everyone taking part:

- Be treated like businesspeople and work with mentors and facilitators to help you through the challenge
- Win prizemoney to spend on technology, tools and more for your school, college, group, community or local cause
- Understand what modern business and technology careers are all about by working through our challenge
- Learn the most up to date business skills and processes to help you solve the challenge
- Be recognised with an official certificate and a digital badge, capturing the skills you have learned and the task you have completed successfully
- Have access to businesses, businesspeople and the opportunity to visit and work with sponsoring organisations
- Be granted access to cutting edge Web3 technologies to support your solution and fund-raising efforts
