Calling all Primary Schools Year 6

If you think business and technology careers are boring – think again!

Take part in the DiversITy-talent awards to discover what it is like to be a business and tech pro... And how exciting, creative and satisfying it can be!

DiversITy talent

With thanks to our founding partners:

BCS FOUNDATION · CIONET What's next · the ESG institute

Modern business and tech is not just about coding and computers

It's fun, flexible and well paid

Technology can change the world and YOU can be the ones to make it happen

It's creative and innovative

Enter the DiversITy-talent Awards competition to solve a big problem in our society and communities.

Your success will be rewarded!

- You will have fun, learn digital skills that will boost you in secondary school and beyond.
- At the end, you'll get certificates and digital badges.
- Plus, your school can win some cash for cool tech stuff!

How to get involved

Registration is open over November and December 2023 : Submission of your team's solution by **May 2024.**

Teachers get a diverse team of 10 together (Half of the team must be girls) You can enter up to 3 teams!

Enter your team in our competition here: bit.ly/DiversITy-Awards

Teaching design thinking is essential and not difficult. We will support you as teachers by giving you a virtual mentor supporting you every step of the way, workbooks, videos, and facilitator guides so you have everything you need to start.

As you tackle the challenge, we will provide workbooks and technology to help you turn your ideas into reality.
