

Calling all Colleges, Universities, Business Schools and Apprenticeships...

Transforming Society through Technology & Innovation
Harness Your Creative Power to Solve Real-World Problems, while experience modern business and technology approaches

With thanks to our founding partners:

Enter the **DiversITy-talent Awards** competition to solve a big problem in our society and communities

Gain practical experience in problem solving, innovative technologies, communication, collaboration, storytelling, creative skills and much more

Technology and modern ways of working can speed up innovation and help us across all industries.

We will formally recognise everyone taking part and provide tools and rewards that can be used after the competition.

- You will receive certificates and digital badges at the end of the competition that will be recognised by business
- You have the opportunity to win money to invest in tech-related tools and experiences
- You also have the opportunity to use cutting edge technology to help you implement your solution in your area or community and raise further funds through creative digital assets you can sell!

How to get involved

Registration is open over November and December 2024 : Submission of your team's solution by May 2025, with the awards event for all finalists in July 2025.

Create your diverse team of 10 (#1 rule is each team must be 50% female / male split)

Enter your team in our competition here:
bit.ly/DiversITy-Awards

We will work with you and your local sponsor, so you have the support, tools and techniques you need to work on your solution.

As you tackle the challenge, we will provide workbooks and appropriate technology to help you turn your ideas into reality.
