

Calling all College, University, Business School and Apprenticeship Students

Work as part of a team and discover what it is like to be a business and tech pro.

Prepare for your first career steps by taking part in the DiversITy-talent challenge and solve a business, community or youth challenge, in the same way we do it in the workplace

With thanks to our funding and certification partners:

Coforge

nationwide

New College
SWINDON

BCS
The British Computer Society

CIONET
Innovation

Enter a diverse team of up to 12 pax and take part in the **DiversITy-talent challenge** to solve a big problem in our businesses and communities

Gain practical experience in problem solving, innovative technologies, communication, collaboration, storytelling, creativity and more.

The skills you need for the workplace right now

Technology and modern ways of working can speed up innovation and help us across all industries. Whether you want to run your own business or have a different career path in mind.

Enter a team into the DiversITy-talent challenge and solve a **business or community challenge** through our 30-hour experience, over one week or split over multiple weeks to suit your timetabling.

Receive an accredited certificate to add to your CV!

- You will receive an accredited certificate and digital badge at the end of the competition, recognised by business, to add to your CV
- A winning solution can also lead to our second programme which is aimed at making your solution a reality through creating a business case, pitching to investors and creating the implementation plan.

How to get involved

Registration is open now for a chance to join our programme. Sign up through the link or QR code below

Work with your faculty or sponsors to create diverse teams of up to 16 participants together (50/50 gender split where possible) and sign up through the link below.

We can run the DiversITy-talent challenge with full year groups if preferred, split into smaller teams and supported by multiple DiversITy-talent facilitators.

Our trained facilitators make the challenge fun, rewarding and creative, and will include guests from the business community, public sector and charities where required. All DiversITy-talent representatives are Enhanced DBS certified.

Each team taking part will be given workbooks, coaching support, leading-edge tech where relevant, and other resources to help turn ideas into real solutions.
