Take part in the DiversITy-talent challenge and solve a real business or community challenge, in the same way we do it in the workplace

Gain practical experience in problem solving, innovative technologies, communication, collaboration, storytelling, creativity and more.

The skills you need for the workplace right now

Technology and modern ways of working can speed up innovation and help us across all industries. Whether you want to run your own business or have a different career path in mind

Receive an accredited certificate to add to your CV!

- You will receive an accredited certificate and digital badge at the end of the competition, recognised by business, to add to your CV
- You will boost your motivation, confidence and employability through our programme
- A winning solution can also lead to our second programme which is aimed at making your solution a reality through creating a business case, pitching to investors and creating the implementation plan

Sign up individually or work in your group / with sponsors to create diverse teams of up to 16 participants.

Enter your team into the DiversITy-talent challenge, through the link or QR code below, and solve a business or community challenge through our 30-hour experience, over one week or split over multiple weeks to suit the group.

Our trained facilitators make the challenge fun, rewarding and creative, alongside guests from the business community, public sector and charities where required. All DiversITy-talent representatives are Enhanced DBS certified.

Each team taking part will be given workbooks, coaching support, leading-edge tech where relevant, and other resources to help turn ideas into real solutions.

SIGN UP NOW!
